4.

1. The first part of the document is a list of names and dates, which appears to be a record of some kind. The names are written in a cursive script, and the dates are in a more formal, printed style. The list is organized into two columns, with names on the left and dates on the right.

2. The second part of the document is a series of short, handwritten notes or entries. These are written in a cursive script and are arranged in a single column. They appear to be a continuation of the record or a separate set of notes related to the first part.

3. The third part of the document is a series of short, handwritten notes or entries. These are written in a cursive script and are arranged in a single column. They appear to be a continuation of the record or a separate set of notes related to the first part.

4. The fourth part of the document is a series of short, handwritten notes or entries. These are written in a cursive script and are arranged in a single column. They appear to be a continuation of the record or a separate set of notes related to the first part.

5. The fifth part of the document is a series of short, handwritten notes or entries. These are written in a cursive script and are arranged in a single column. They appear to be a continuation of the record or a separate set of notes related to the first part.
